### Tractor Therapy –It's good for what ails you!

After thirty seven years of marriage and eighteen months of doctors, surgeries and chemo, my wife finally won the victory. She went home to be with her Lord and Savior on the morning of June 7, 2006. Now, what was I to do? With the help and support of a strong church family and many other good friends this change was bearable. God's Grace is sufficient.

One day my best friend, Butch Minyard, said, "You need something to do. Find you and old tractor that needs some attention and this will surely occupy your mind, your time, and not to mention your money for quite some time." I remembered a few years earlier my neighbor had bought a 943 B John Deere, but soon lost interest in it and stored it in one of his buildings. Butch and I went to look it over. At first, Butch said a little sheet metal work, some pain, new tires, and you are ready to ride.

My neighbor, Glenn Kohnle, took a loss and I was happy to get the tractor. It looked like this job might take a month or two to finish, but I was ready. The little bit of sheet metal work was completed by another good friend, Howard Williams, and his side-kick, Foster Edgar. After seeing some of their work, I decided to let them paint all the sheet metal as well. Good choice, Howard is very particular with his work.

Meanwhile, Jeff's Truck and Tractor was rebuilding the engine, I was finding more and more that needed repaired or replaced. I had to replace gears from the transmission to the ball gears in the rear end. One day on a trip to Shelby to get some parts from Billy Wilson, I saw a 1952 G John Deere a few miles out of Mt. View. I knew that Butch had a "G" that sounded awesome and I just had to have that tractor also. After about two weeks and paying way too much, it was mine. This tractor would run and was drivable.

Did I fail to mention that Butch also got me into Foothills Antique Power Association? These folks went on long tractor rides. On one of these rides on my newly acquired "G", we traveled all around Conover, but Jamie Sigmon pulled me and my "G" for the biggest part of the ride. At a stop in Conover, Claude Wilson, Roger Jones, and a few others fixed the "G" good enough for me to get it back to Wilson Sigmon's. The "G" was then parked until I finished the "B". By the way, the "B" was finished in about thirteen months. It was now time to start of my "G". This was an easy project after all my experiences. Again, with the help of Howard Williams and Butch Minyard it was finished in about ten months.

Was this good therapy for me during a time of grief? It certainly was. I enjoyed every minute of it and somehow during all these months of enjoyment the Lord put more in my life, her name was Martha. Martha and I were married May 2, 2009 at Grace Baptist Church. We left the church in my parade wagon pulled by my now dependable G-John Deere, driven by my best man, Butch Minyard.

The Lord has blessed me with two good women and many good tractors in my life. Marth and I have been married for seven years and I think I failed to mention Martha has a 1957 Chevy Bel-Air which finished its restoration in 2012. The tractors are still more enjoyable than the cars.

A lot has changed from the day Butch mentioned getting an old tractor. It has been my honor to share these memories with Butch. Please remember to him, Mr. Jan and all of the Minyard family during their difficult times.

Thank you for your time,  
Gwyn Wallace

Rising Hope serves as non-profit therapeutic riding facility and equestrian activities for the purpose of contributing positively to the cognitive, physical, emotional and social well-being of those with disabilities.

We offer:

**Therapeutic Riding** for individuals with special needs, diseases and injuries.

**Hooves for Hospice** for children & teens who have lost a parent or sibling.

**Horses for Heroes** for disabled veterans, policemen or firemen.

Rising Hope Farms invites you to partner with us by sponsoring a much needed endeavor. In

order to continue riding therapy year round, Rising Hope Farms must build an indoor arena. As a charitable riders depend on your support.

Miracles of horses and donating to indoor arena. Visit our two about this

happen at Rising Hope! Be a part of and **prayerfully** give to this ministry individuals with special needs by our capital campaign to build an

## IT'S TIME FOR SPRING CLEANING

- Have a truck load of furniture, furnishings, clothes, housewares, tools and equipment? Call our Thrift Store to schedule a pick-up from your house. Or drop off items at the store Tuesday-Friday from 10:30 a.m.-6 p.m. and Saturdays 10 a.m.-3 p.m.
- Volunteer! We need volunteers through-out the week to sort, make displays and assist folks with shopping or dropping off items. Call the store at 828-327-4796 for more information.

## The Last Ride

I was introduced to country living and its ways around 1998. I'd never paid much attention to tractors nor did I know anything about them. The Austin family, which I'd grown to love, and married into were huge fans of John Deere. Around 2005 on a Wednesday morning, Anthony's dad, also known as Pop, called Anthony at work and told him to guess where he was. Pop said I am down in South Carolina looking at a tractor, but not any tractor, a John Deere and we are coming back Saturday to pick it up he said.

Saturday morning, they left and to return with one of the biggest, greenest, loudest tractors I'd ever laid my eyes on. I was quickly educated on this 1951 beauty. "She" stood tall and proud with tires tall than me. It was so loud that with each pop, pop it sounded like a gentle giant. It was a true piece of history, and the man that drove it was the one most proud of it.

In the years to come we would quickly figure out when we heard it crank that there was going to be a ride to follow. Whether it was a ride to the church, to get gas, or just to haul the trash off, it was always a thrill to jump on the back and ride. Pop began to put the John Deere in our local parades, church functions, and tractor shows, but the most memorable moments were those Sunday evening rides. I'm not sure what was more exciting, hearing the tractor or seeing the smile on Pop's face. That John Deere brought the kid out in him. He loved that ole tractor and I grew to have a huge appreciation for it.

In June 2012, on a hot summer's evening, I had returned home from work and I saw Pop go around back which I knew usually led up to a ride. As hot as it was something told me to go ride with him, which I did and I am so thankful. Pop was such a father to me in so many ways and that ride we took on that hot summers evening would be our last. Pop grew sick in July 2012 and passed away that September.

Climbing up on that John Deere isn't the same with Pop gone, but having the privilege to introduce and education others on the 1951 John Deere and Pop is priceless. Pop will be forever missed and always live in our hearts.

Your daughter-in-law,  
Sherry Austin

### Dion 28x48 Threshing machine.

Built in 1953, it is one of the last ones built by Dion Manufacturing, Sainte Therese, Quebec, Canada.

This thresher was used on the Nelson Beachy farm in Walnut Creek, OH (Holmes Co.) until 2013 when their relatives Terry & Scott Rodland purchased it and transported it to North Carolina where it is now used to demonstrate the farming practices that in this area in days gone by.

The Beachy family continues to maintain the Amish way of life.

This thresher can be observed in operation during the upcoming Harvest Show June 11 sponsored by the Catawba Valley Harvest Association.
